#### Invitations

Molly Hadden, Ruth Gaddy, Betsy Smith and Sidney Pitre work on invitations that will be sent out to patrons and guests of the gala "Toast to the Coast." The event, sponsored by Coast Episcopal Schools Parent Teacher Organization, will be held Friday, Oct. 14, in Pass Christian. The

"Toast to the Coast" showcases the art, music and food of the Gulf Coast. Many of the area's finest restaurants and caterers will present their specialties. There will be a live and silent auction and entertainment by Vince Vance and the Valiants with dancing until 1 a.m. (Echo staff photo by Charlee Marshall)

#### Governor proclaims October **Crime Prevention Month**

Gov. Kirk Fordice has proclaimed October as Crime Prevention Month in Mississippi.

The governor said that "in this area of escalating fear throughout the nation because of violence, citizens must be made aware of what they can do to protect themselves, their families, their neighbors and

their communities."

Noting that "this administration has devoted a large segment of our 1995 legislative agenda to getting tough on crime and criminals," he said that "our legal system must accept responsibility for protecting our citizenry from unnecessary and inexcusable

repeat offenders and must do everything in its power to stern the rampant cancer of crime presently blighting cities towns, homes and lives."

The Mississippi effort, which will include a wide range of local promotional activities, is in

GOVERNOR—Page 3A

#### Weekly show will focus on leaders

With an eye toward identifying and recognizing individuals and companies promoting business and industrial growth in the state, the Mississippi Authority for Educational Television (ETV) and The University of Mississippi are teaming up to produce the weekly show "Mississippi Business Today."

Beginning Oct. 4, the 30-minute show will air at 7:30 p.m. Tuesdays on ETV, following Public Broadcasting Service's (PBS) "Nightly Business Report." It will offer a unique perspective on Mississippi businesses and business leaders.

Opening the show will be a roundup of business news events of the previous week, followed by three business profiles and a one-on-one interview with a special guest.

During the season, the show will travel to chambers of commerce and economic development organizations throughout the state.

The closing section of each week's show will be an editorial comment from Buddy Bynum, editor of the Mississippi Business Journal, who will discuss business issues and trends.

Ole Miss Chancellor R. Gerald Turner described the new show as a perfect mesh of the university's interests and strengths.

"We want to help spread the word of success stories about Mississippi businesses, so potential entrepreneurs and our own students will be both inspired and motivated. In addition, we are excited about the university's Teleproduc-

## Waveland's aldermen approve 1993-94 budget

#### Weidman votes against amended version

BY SHARON K. SAUCIER The Waveland Board of Aldermen approved their amended budget, but not with-

out a little bit of debate. Alderman Stan Weidman did not want to have a vote to approve the amended budget without time to look over the figures first.

Waveland Mayor Stella Frilot told Weidman that there was no way that he could have seen it before the Wednesday night meeting because it was not completed until 3 p.m. that day.

The budget in question was the 1993-94 budget to show the board exactly how much was spent during the fiscal year, which will end on Sept. 30.

"Our people have worked

Frilot said.

"I don't doubt that, but I think that we should wait until we have had time to look over these figures and fully understand them," Weidman said.

"It really doesn't matter. Stan, because you will just vote against it anyway," Frilot said.
"You're right, it doesn't matter because it will automatical-

The board did approve the amended budget with Weidman voting against it.

ly pass," Weidman said.

The board also set the millage for the 1994-95 fiscal year. Residents of Waveland should find approximately a 6.3 percent decrease in their prop-

very hard at getting this erty taxes for the upcoming together for tonight's meeting," year with the .85 percent decrease in the millage.

Frilot said that the main reason the city was able to reduce the taxes is because the city's Hurricane Camille loan has been paid off.

Until this administration there was no payment toward the principal on the loan. This administration has paid the loan in full," Frilot said.

The board also appointed members to the Civil Service Board which oversees the city's Civil Service program to start in

Those appointees are Bobbye Hendrix and JoAnn Hubbard for four year terms, Armand Jonte for three years and Patrick Toomey for one year.

#### County will vote to merge garbage collection services

#### Considered simplest and best route

The Hancock County Supervisors will vote to turn the garbage collection for the entire county over to the Hancock County Solid Waste District on

Wednesday. The board decided in a workshop Thursday that it would be the simplest and best route to take for the citizens of the coun-

ty and the supervisors. "We need to get out of the gar-

BY SHARON K. SAUCIER bage business," board president Mike Ladner said.

> The board will turn over three mills to the district, which amounts to approximately \$405,000. The board will retain .8 mills in case of a shortfall in garbage fee collections.

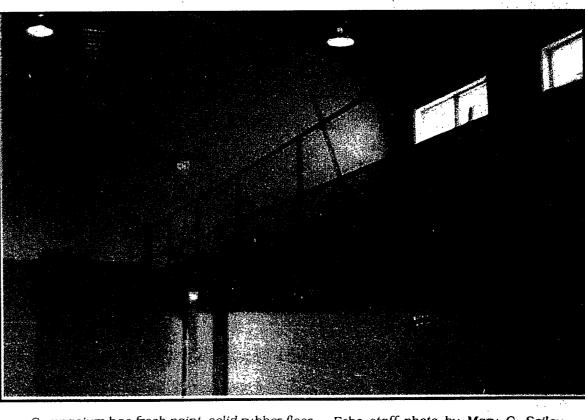

The solid waste district will consist of Hancock County and the cities of Bay St. Louis and

Waveland. Board President Mike Ladner said that the county was making history twice this year, first by reducing taxes and now by consolidating a county-wide

service. The county will pay its portion of the contract with Boudin's Waste and Recycling from

The millage that is being given to the district will cover

#### Elderly encouraged to get flu shots

With the approach of autumn, it's time for older Americans to take precautions against the pneumonia and flu epidemics that are on the horizon. The cost of both pneumonia vaccinations and flu spots is covered by Medicare Part B (Medical Insurance) for those age 65 or older.

The National Institute on Aging (NIA), American Lung Association and the Department of Veterans Affairs have launched a coordinated campaign to encourage elderly people to be vaccinated this fall.

Medicare beneficiaries do not need a doctor's prescription or supervision to have this vaccination covered by Medicare Part B. and, beneficiaries do not pay a deductible or coinsurance amount.

Medicare Part B pays the reasonable approved amount for either shot. If the cost exceeds the approved amount, the beneficiary is responsible for the difference.

Generally, the cost will be paid if the vaccine is provided at a doctor's office or by a hospital,

#### ding immorality in front of our

caller was saying on the radio. They know what it means when kids come into the bank to deposit thousands of dollars in cash. Sure, they know the money had to come from dealing

"Bank officers know," the

in drugs. Since there's a form to fill out for deposits of \$10,000 or more, some bank officers explain to the kids how they can circumvent this requirement by

making smaller deposits of a few thousand at a time. "They have done it in my presence when we were about to go out golfing. So who's at fault? Adults who don't challenge the financial activity of the drug dealers are every bit as guilty as

the kids who do the dealing and act as bagmen.' Another caller jumped on the parents: "You don't need a beeper!" the mother told her son right in front of me.

'If I don't get a beeper, who's going to pay your utilities?" she son asked, pulling out a huge roll of bills.

"These mothers have to stop accepting money from their children who are drug dealers. By accepting money, they are putting their stamp of approval on drug dealing. In such cases, the radical change must begin with the parents.

So it is with this entire crisis of youth immorality and criminal activity. Parents, all adults must take the initiative in bringing about a change of atmosphere. In blunt terms, the world's atmosphere is sinful, dirty and deadly.

In even blunter terms, we adults are that sinful, dirty, deadly atmosphere for our children, making pious speeches while we do our pot, our careless drinking and immorality.

"How can we expect the children to have a wholesome idea of life and morality if the mother brings her boyfriend in on them

Ain't it nifty?

Sharon is

repeatedly?" a radio guest asked.

youngsters."

However, even more to blame than TV are the parents who relegate their children, to watching TV.

babysitter for so many of our children who watch up to 42 hours a week? Too many parents have abdicated their roles to the cold, ruthless commercialism and immorality of money-oriented programming.

Is it any wonder that children, teenage and under, who are not noticed nor given time and stroking at home, turn to gangs which acknowledge them as someone worthwhile? Being treated like dirt at home is the best draw for the gangs.

"I belong! I'm accepted! Now I am somebody!" is the clarion cry of every child who joins a gang. Not every parent is guilty as charged, of course, but one or both parents in most gangrelated cases has succeeded in

cooperation with the National Crime Prevention Council, a private non-profit organization to help prevent crime and build safer communities.

Donald O'Cain, executive director of the Mississippi Division of Public Safety Planning, said that "all of us must recog-'nize that crime prevention requires the concentrated efforts of far more than law enforcement officers.

"Mississippians in nearly all walks of life can do something to help make our state safer."

He offered 10 suggestions on what neighborhood residents can do to prevent crime:

Work with public agencies and other organizations on solving common problems.

- Be sure that all neighborhood youth have positive ways to spend their spare time through organized recreation, tutoring programs, part-time work and volunteer activities.

— Set up a Neighborhood Watch or a community patrol working with police.

- Build a partnership with police that's focused upon solving problems instead of reacting to crises. Make it possible for neighbors to report suspicious activity or crimes without fear of retaliation.

— Take advantage of "safety in numbers" to hold rallies, marches and other group activities to show a determination to drive out crime and illicit drugs.

— Clean up the neighborhood. Graffiti, litter, abandoned automobiles and run down live or each other. Criminals see this as an indication that you aren't organized and are an easy crime target.

- Ask local officials to employ maximum efforts, such as enforcing anti-noise and anti-nuisance laws and housing, health and fire codes, to rid the neighborhood of criminals.

- Form a Court Watch to help support victims and witnesses and to see that criminals

are appropriately punished.

— Work with schools and recreational officials to establish drug-free, gun-free zones.

— Develop and share a phone list of local organizations that provide counseling, job training, guidance and other services that neighbors might need.

During Crime Prevention Month, young people will be encouraged to honor law enforcement officers in a weeklong Oct. 3-9 Police Appreciation Time (PAT).

"It will be a time," O'Cain said, "for youths to show their appreciation to local law enforcement officers and to foster better understanding between the young people and the officers.

Youth groups such as Students Against Driving Drunk (SADD), Youth to Youth and Peer Helpers will participate in activities such as taking refreshments to police stations and sheriff's offices at shift changes and washing law enforcement vehicles.

"Law enforcement is one of the most dangerous and demanding of all professions," O'Cain noted, "and law enforcement officers sometimes don't receive the appreciation they

"They are worthy of our gratibuildings tell criminals trace trace every week of the year, but you don't care about where you we-do feel it's important-to-set aside one week for young people to put particular emphasis upon showing their appreciation."

sand-free. Toward that end, the city has invested in specialized floorcleaning equipment. And the entranceway carpet, he said, will be vacuumed frequently.

Outside the gym, city workers upgraded drainage in the courtyard of the complex, and landscaped it. They then built a sidewalk leading to the area of the former school, now used by

area senior citizens. Members of City Council are expected to tour the facility-

reg. \$199 - now \$129

By Ellis C. Cuevas

Fall is here, that is officially since Friday morning. There was a hit of fall in the air Friday morning, but it gure got hot later into the day.

Weather forecasters are saying we are to have a cool spell this week, and I am looking forward to it.

This is the time of the year to get your grounds ready for fall planting.

I know there are some who have already begun their

Those fresh greens, such as turnips, collards and mustard greens, have been popular for many years in this part of the state.

I hope everyone who plants will have a good season.

I just have to agree with Bay Mayor Eddie Favre's feeling about the federal government on their blocking the city's purchase of the old depot.

Can you believe the federal government says the city was going to pay too little for the purchase of the depot? They just want Bay St. Louis to pay twice the amount

they were able to negotiate with CSX Railroad. It is no wonder the United States is so far in debt and this will continue to the end of eternity with decisions being made like this.

#### THE PEOPLE'S BUSINESS

A Weekly Editorial From Mississippi Economic Council

#### Who believes in Ghosts? The EPA

Americans are soon going to have to decide if they believe in ghosts. Evidently the federal government does. It has announced that beginning December 31, 1995, the production of chlorofluorocarbons (CFCs) will be banned.

One such CFC — freon — is used in just about anything that cools, such as refrigerators and air conditioners. So most homes, cars, hospitals, churches, businesses, prisons and facto-ries who use CFCs in their cooling systems will have to have those systems converted or completely replaced when the coolant runs out after December 1995.

In the end, it's going to cost Americans billions and billions of dollars just because the Encironmental Protection Agency believes the ghost story of "The Depleting Ozone

The story some scientists tell is that CFCs deplete the ozone layer of the earth's atmosphere, but other scientists dispute whether the ozone is actually depleting at all — by CFCs or anything else.

And, still, another theory advanced by scientists is that the amount of ozone in the atmosphere is increasing. In fact, these scientists propose that the ozone is replenished by the very process some other scientists believe destroys it — the burning of CFCs.

Who knows which ghost story from which scientist to believe?

Paul Craig Roberts, chairman of the Institute for Political Economy in Washington, D.C., says, "Whatever the true story turns out to be eventually, propaganda has prevailed over scientific fact up until now, and a government policy that is going to impose undue hardship on us all has run far in advance of the evidence.

The EPA needs to slow down and take a common sense approach to policy making that is in sync with the evidence. All EPA actions should be firmly supported by scientific fact rather than speculative scientific bugaboos.

#### Tourism seminar

The Hancock County Chamber of Commerce's Tourism/ Economic Development Committee sponsored a Hospitality Training Seminar held at Coast Electric's Conference Room. The presentation was by Chic Warner and Barbie Russum of the Mississippi Department of Economic and Community Development. Some 50 people from area businesses attended the seminar divided into two sessions. In photo, from right, is Bobbie Hawthorne, director of Hancock County's Welcome Center, who was chairman, and Cindy Schoonmaker, Weclome Center hostess. (Echo staff photo by Ellis C. Cuevas)

#### LETTERS TO THE EDITOR

#### A little bit o' litter . . . every day

Adopt a road, adopt a beach, adopt a highway — all good ideas, but who has time? I work, go to church, attend meetings, prepare meals, keep house and yard, and the doctor says I should walk at least a mile a day. There's not time for picking up somebody else's trash — and why me? — why don't they pick up their own trash? They shouldn't put it there anyway.

These were my thoughts until recently when I decided to walk around my block each morning before going to work. The first morning I came home outraged. There was so much ugly litter along the roadside in just my one block, that I was not could continue a daily walk. It was just too upsetting.

There was no way I could pick up all that junk, but I decided it would make me feel better if I just picked up one bag each day. Thus began a series of adventures.

The first day I carried along a plastic grocery checkout bag, and quickly decided that I would need two — one for recyclables and one for other trash. After a week of daily rounds, picking up just two little bags full, almost all of the 'old" trash was gone! And then

the fun began. I have come to know something about the people who pass this way and deposit their trash on a regular basis. For instance, there's the person (politically correct way to say fellow) who likes his Longneck beer. I picture him leaving one of the bars downtown (where he is a regular, enjoying his nightly camaraderie), with his bottle in his

hand. Being a thoughtful fellow, he knows he shouldn't be seen on the highway drinking and driving, so he finishes just before he reaches Hwy. 90 and slings the bottle out the window on Beach

Day after day, I am able to count on at least one of his bottles for my recyclables bag until there's not one for two days straight. I find myself worrying that he is ill.

Then there's the fast food patron who finishes his tall cup just as he leaves the highway and turns onto Second Street. Out the window it goes, right near the sign that says Please Don't Litter.

Obviously he or she is headed home, so why not carry the cup to their own garbage can? Could it be that they eat at the fast food store every day so they don't have to cook, therefore not generating enough trash to bother with a garbage can at

There are some real mysteries to intrigue me, too. Mon-

day, Sept. 19, I came upon the remnants of a campfire on the highest point of the "Pete Fountain/Casino Magic" property. The coals were still smoking and were topped by a sweater, perhaps in an attempt to smother it?

The next day the ashes were cold, so I picked up some of the remnants — the toe of a burned sneaker — the heel of a burned leather oxford - two fingers of a red glove — some newspaper, rags, plastic, cans, etc.

Alongside the fire was a partially charred onion and a package of cheese crackers.

I felt like calling in Miss Marple on this one. The sweater had a label proclaiming it to be rganicany grown. Deside there was another small label identifying the fabric content to be 100% Acrylic. How does one grow. Acrylic, organically or otherwise?

My daily walks take about 45 minutes and can hardly be classified as aerobic, but they can be

heartwarming.
You learn a lot about people, and litter can be as interesting as it is disgusting. I picked up a piece of ruled paper and was utterly charmed by the following:

"Rough draft . . . Sept. 6.

"The person who influences me the most in my life is my mother. She is one of the strongest women in my life today. I admire her because of her independent attitude. With that she instills in me that no one will give you anything.

"You have to work for what you want and need. My mother is a hard-working woman who does her job better than anyone

"I admire my mother for the way she handles my brother and myself. She does not take any mess from any one of us. If she did I probably wouldn't respect her the same way. She doesn't like to be called ma'am because it makes her sound old. To me that's cool.

"My mom is a pshycic (sic), because she knows everything my friends and I do when we go

"She knows we're not innocent little babies who have good clean fun. She knows we drink, cuss and yell out the window at good-looking girls. She's done all these things except yell at good-looking girls."

This eloquent essay was unsigned, but I'd love to meet his mom.

By the way, if the combination to your safe is: 4 turns L to 30, 3 turns R to 74, 2 turns Left to 40, 1 turn down to stop — I found a card with your combination written on it! Kay Baltar

#### Resident says Stennis should help county with wastewater

To the Editor:

What does the 2% decrease in taxes in Hancock County mean to the average taxpayer? It is my understanding that the saving is worth about \$5 per \$50,000. Consider the shape of Han-

cock County's infrastructure in regards to sewage problems, road and bridge problems, lack of building codes and zoning and the reduction of the tax base due to federal control over one-third of the county, wetland restrictions and so on. What is the average taxpayer saving?

One of the biggest problems facing Hancock County citizens is property ownership and the devaluation of our property due to the inability to develop it. What is the point of owning and paying taxes on property when you cannot make improvements due to the inability to dispose waste or buffer zone restrictions?

In 1988, before the introduction of the casino industry, the Mississippi Research and Development Center predicted the population in Hancock County will double in 25 years from about 30,000 now to 60,000 then. If Hancock County infrastructure problems are not properly addressed now, what chance does the county have of solving these problems in the future?

Solutions to these problems

must be addressed now! One of Hancock County's biggest assets is the Stennis Space Center. Since the Stennis Space Center is responsible for the status of over one-third of the county and does not contribute to the tax base like the casino industry, the county needs to utilize this asset to contribute more to the resolutions of these problems.

The overall economic impact of the Stennis Space Center cannot be ignored. But we should understand where we stand in comparison. Look at the Marshall Space Flight Center, which controls less than half the amount of land and has over double the economic impact on the surrounding area and is more involved in the local communities. Now, let's look at a possible

solution for wastewater disposal. Since 1971, the Stennis Space Center has been working on wastewater treatment systems. Since wastewater treatment systems require a buffer zone, which the Stennis Space Center has, along with state-ofthe-art technology in wastewater treatment, would it not be asking too much of the center to work with the board of supervisors in resovling the sewage problem?

Sincerely, Joey G. Manieri Bay St. Louis

#### Catahoula resident says garbage fee is unfair

Dear Editor,

I just received a bill last month for two months garbage collection. We don't want or need this service.

It is too bad we have to pay Boudin's bills for them. We get such a small amount of money, we barely pay our necessary bills. And now we get stuck with

this unnecessary bill. We live on only my Social Sec-

This is just not a free country anymore. They are using the poor to make other people rich. It is hard enough to make ends meet. This is surely not fair.

The Boudins don't work, they even have other men do the pickup. Why don't they get a job? They are young enough. I'm

Sincerely yours, Cleo Lizana Catahoula

#### Resident questions how Bay handles animal problems

Your article (Supervisors hear dog story, by Charlee Marshall) is a real serious story. However, I do feel the quote. 'God bless Bay St. Louis and Waveland because both cities have ordinances on animal control and have adopted leash

laws," is way out of line. On Aug. 5, I called the Bay St. Louis Police Department. The complaint was of neighborhood (Cedar Point) dogs breaking the front window out of my house to get to my dog, who was in

The glass was inside, so it was done from outside. I took all precautions possible to keep my dog away from neighborhood

On Aug. 5 the animal control officer was made aware of my complaint. Then he really surprised me by describing the

dogs in our neighborhood that we were having a problem with.

He said we could bait them. I offered my yard as the spot to bait them. I never saw any traps, or animal control people, for that matter. These dogs are still roaming our neighborhood. If these laws are on the books,

then I would really question how animal control handles these calls. I feel the itemized budget and

the leash laws should be made public in the paper to educate the public. If the finances are not there,

then change it. If the finances are there, then the department should be investigated as to why these laws are not enforced.

Puppies will be ready in nine weeks. Charlene Andrews

Bay St. Louis.

#### Lakeshore resident feels Haiti efforts a waste

As so many others did, I watched on TV as American servicemen were landed in Haiti. My first thought was, where

will they sleep or eat? Or will they have to lie on the ground as they did in Somalia until barracks can be secured. In all the months of telling

the generals in Haiti they would have to go, it seems to me some arrangements could have been made for housing and other things for our servicemen. And now that millions of dollars have been spent in sending aircraft carriers and other ships

to the Haitian coast, having 61 planes with at least 60 men left off from Fort Bragg get half way there then ordered to return to base, what has been accomplished? Nothing. The generals are still in con-

trol and have until October 10 to step down, but do not have to leave the country.

So what comes next? Will President Clinton pour millions of dollars into Haiti as he did in

Granted, there are hungry people there, and they need food. But there are hungry people in this country, this state and this county.

What is that old saying? "It's better to give than to receive.' But they also say "Charity begins at home.' In my humble opinion, after

every American has a full stomach, a bed and a roof over their heads, then America can worry about what goes on in other countries.

We do not belong in Haiti telling them how to run their

If Haitians want Democracy they must help themselves.

Our prayers go to all the servicemen in this brutal county, and I, as so many others, will keep my eyes glued to the TV hoping and praying that not one drop of American blood is shed in Haiti.

Respectfully, Nina Garcia Lakeshore

# For Keith Mitchell, WAVELAND FIRST Is More Than Just A Campaign Slogan

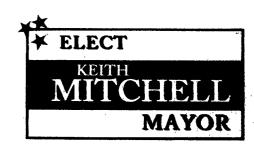

f When Keith Mirchell first decided to run for the office of the Mayor of Waveland, it was at the urging of people who know what he has already done for this city and its citizens. For example, he took the long overdue steps no one else had taken for the reclassification of our city's flood rating resulting in lower flood insulance costs and more money in our pockers.

Keith Mitchell established a data base of available funding for the special needs of our cuy and then worked dilt gently to bring in the thousands of badly needed dollars that will guarantee the continuation of programs like the R.S.V.P. for our older citizens

 ${f A}$ nd thanks to Keith Mitchell, we will soon see a beautiful arboretum exhibit at the intersection of Highways 603 and 90 coming into the city. The list goes on. Most importantly, with Keith · Mitchell as our mayor, that list of accomplishments for our community will grow even longer.

**A**s the Director of Community Development for Waveland, Keith knows firsthand the real needs of this city. He knows what to do to set things right

Keith Mitchell has already demonstrated his commitment to put WAVE-LAND FIRST.. He has developed that commument into a solid, comprehensive plan of action designed to ensure the luture success of our city. We need the leadership and the dedication of Keith Mitchell as our first full-time mayor to put WAVHAND HRST. We need Keith Mitchell and we need WAVE-LAND FIRST.

#### Confrontation

A host of Panthers rushes to block as the Hawks carry in Friday night's game when Hancock emerged victorious.(Echo staff photo by Sharon Saucier)

of the game. Then, on the first snap of the Hawks' first possession, J.J. Hay ran for a 50-yard touchdown with 9:35 still to go in the first quarter.

Hancock dominated the first

quarter, forcing the Panthers to

punt away their first possession

Rocky Gaudin said.

The extra point by Antonio Carillo was good, and the Hawks were on the board early with a 7-0 lead.

Following only a 2-yard gain and two incomplete passes, Northshore punted the ball away again.

Hancock started their next possession on their own 44-yard

That is when Billy Lee exploded for a 56-yard touchdown run with only a minute and 15 seconds gone by since the Hawks' first touchdown.

Again, the extra point by Carillo was good and the score was 14-0 with 8:10 still to go in the

Northshore regained possession of the ball at their own 18-yard line following the kickoff. The Panthers worked hard, but could not beat the tough Hawk defensive line and decided to punt.

That was a mistake for the Panthers, because the punt was blocked by Chad Bennett, and the Hawks took over on the Panthers' 2-yard line.

It took the Hawks a little lon-

ger this time to make the touchdown, but they did make it. On fourth down, Hawk quarterback Chad Peterson went for the quarterback sneak, which was a success.

The Hawks scored again, and with Carillo's good kick, they led with a score of 21-0 with 3:42 left in the first quarter.

Northshore started fighting back in the last minutes of the quarter, earning three first downs in their attempt to get into Hawk territory.

Defensive back Roland Cuevas stalled the inevitable by knocking down a pass that could have been completed for a touchdown.

However, the Panthers made good on their efforts by rushing their way past the Hawks' 5-yard line and eventually to the 1-yard line.

Delwin Jones rushed the yard for the touchdown and put the Panthers on the board with 40 seconds left in the first

The kick by Adam Revette was good, and the score was now 21-7, Hancock.

The second quarter was pretty quiet, compared to the first. Then with 2:52 left in the quarter, Cuevas, the smallest player on the Hawk team at 5'5" and 125 pounds, intercepted a Panther pass so that the Hawks regained possession at their own 37.

The Hawks offensive line could not capitalize on the Cuevas interception, though, and ended up with a loss of 20 yards due to penalties. They eventually had to punt.

On the punt, the slippery ball was dropped. A pass was attempted, but not completed.

The Hawks and the Panthers each struggled through a possession and were both forced to punt the ball away.

However, the difference came due to the fact that when the Hawks were forced to punt they were on their own 6-yard

The punt went to the 45 and was returned for 20 yards.

This put the Panthers in excellent field position at the Hawk 25-yard line.

On three snaps of the ball, the Panthers scored their second TD of the game. The kick was good, and the score was 21-14 with 1:10 remaining in the third quarter.

Neither team would score again, but the battle continued.

Stanislaus dominated the Pass Christian Pirates in the first half. During the Rocks' first possession, senior running back Brandon Benoit ran the ball in from the Pirate 12 for what would have been a TD, but an SSC penalty nullified the

The home team kept the drive going for four more plays, but turned the ball over on downs on the fifth play, an overthrown pass attempt. The Rocks got the ball back on the very next play, though, when Benoit recovered a Pirate fumble at the 18.

St. Stanislaus scored on the next play on a run by senior running back Jeep Mestayer. The PAT, a two-point conversion attempt on a quarterback keep-er by Nathan Middleton, failed. The score was 6-0 with 6:20 left in the first quarter.

In the Pirates' first possession, the Rocks were gunning for Pass running back Darrell Biggs, who they hit in the back-

field for losses on three plays. Despite that and two incomplete passes, the Pirates drove to the Rock 15 and went for a field goal. The kick fell short, though, and the Pirates remained scoreless.

The Rocks' next drive halted after four plays; SSC was forced to punt. The quarter ended with the Pirates in possession.

On the fifth play of the second quarter, the Rocks resumed control after recovering a Pirate fumble at the Pirate 45. However, the Rocks fumbled three plays later and the Pirates had the ball back.

Another fumble occurred on the fifth play of the Pirates' drive, costing PCHS a touchdown and giving the Rocks the ball on their 7.

The Rocks immediately drove to the 22 on a run left by Benoit, then to the 39 by Mestayer. A Pirate penalty moved the ball out to the 45.

Benoit ran to the Pirate 37

#### Dangerous duo

Rock senior running backs Brandon Benoit (#23) and Brooks Quinlan (#36) move the ball downfield during a St. Stanislaus possession in Friday's SSC homecoming contest with the Pass Christian Pirates. (Echo staff photo by Ellis C. Cuevas)

who passed back to Middleton after he had run downfield. The pass was incomplete, though, and the Pirates took over, completing two more plays before the half ended.

The Pirate offense exploded in the opening of the second half. The Rocks kicked the ball into the end zone, then the Pirates executed a halfback option pass from Ricky Lewis to Leonard Ward, who ran the ball in for Pass Christian's first score. The PAT kick made the score 7-6 with 11:46 to go in the third quarter.

On the ensuing kick, Benoit took the ball at the 15 and ran it to the Pirate 41-yard line.

On the next play, a 15-yard penalty was called on Pass Christian before the snap, moving the ball to the Pirate 26. The Rocks gained 3 more yards on a pass to David Bell, then drove the ball to the 20 on a run off left side by Mestayer. Pirates Henry Labat and Lester Kellogg halted his advance.

Quinlan took the ball to the 16, then a penalty against the the ball back at the 20. Not at all fazed, the Pirates put the ball in Biggs' hands, and racked up another TD.

The PAT kick failed when the snap was bobbled, making the score 13-6 with 2:55 left in the third quarter.

The Pirates returned with an onside kick that went dead near midfield, but the Rocks incurred a penalty that put the ball at the Pirate 35-yard line and called for a rekick.

Benoit took the second kick at the 25 and drove it to the 39. The Rocks gained 10 more on the next play, a completed pass to McPherson.

A swing pass to Benoit took the ball to the Pirate 48, which was followed by an incomplete pass to McPherson. Next, Benoit gained 3, and an offsides penalty on the Pirates moved the ball another 5 to the 40.

The Rocks advanced another 5 on a pitch to Benoit, and the quarter ended with the Rocks at first and 10 on the 35-yard line.

Quinlan got the final quarter of play off to a fast start with a sion on a pass interception by Ward. A penalty was called on Pass Christian, but the Pirates kept the ball.

Another penalty was called on the same play, but against the Rocks. So, when the dust settled, the ball was placed at the Rock 38 in the Pirates' possession with less than two

minutes to play. The Pirates gained some yards, but didn't get back into scoring range before the game

Pirate head coach Joseph Brown said it felt great to win after last week's loss to Long Beach, but he acknowledged that the contest against St. Stanislaus was a tough one.

He added that the team made a number of mistakes in the first half, but said, "I'll give it to the kids, they got in there and worked really hard.

"That first play of the second half, the halfback option, turned the game around for us. We've been working on that play in practice, and it paid off.

"Execution is everything. All that other stuff doesn't matter." Brown said there were a few

minor injuries, but none that should badly affect the team. Pass Christian, which now stands at 4-1 for the season, plays its first 2-A team next

week, when Mercy Cross comes to Pass Christian for the Pirates' homecoming. St. Stanislaus head coach Brannon LeBlanc congratulated the Pirates on the win, and said of the Rocks, "This

puts us 1-4 for the season, but this was the third of our four losses that we could have won. "We're going to turn the team around, but it's not an overnight thing. Our team has a lot of fight in it, a lot of heart. We

just have to work on continuing to improve." LeBlanc agreed that the Pirates' halfback option was the key to the change in momentum. He said the team had been practicing defending against that play and against Ward, "but when it happened, we just weren't there. I'll have to watch the game film and see what

happened." St. Stanislaus hosts d'Iberville in a district game this week. Kickoff is 7:30 p.m. for both the SSC and Pass Christian games.

next, but a clipping flag on the Rocks cancelled the play and moved the ball back to the Rock

On the next play, Rock senior running back Brooks Quinlan caught a pass and, as he was being tackled, tossed the ball to Benoit, who ran to the Pirate

Quinlan then drove to the 34. Next, Middleton rolled right and pitched the ball to Tyree Haynes, who was run out of bounds at the 31, making it third and four.

The next play, a pass to Freddie McPherson, was broken up by Pirate Raynoid Hatcher. The Rocks took a timeout with 57 seconds left in the half, then came back with an attempt to make the first down.

The try almost succeeded. Middleton pitched to Benoit, Pirates moved the ball to the 11. Benoit gained a yard on the next play, a pitchout, but Ward broke up a pass to Bell on the following play, then intercepted the next pass and ran it to the

Biggs ran to the 40. The Pirates gained 7 more yards on the next two plays, stalled on the third one, then advanced to the Rock 36 on a pass to Ward.

A fumble on the following play nearly halted the drive, but lineman Michael Necaise quickly smothered the ball and kept Pass Christian going.

On a fourth and one situation at the 33-yard line, Biggs took the ball and pushed up the middle to the 29 to get the first down. On the next play he ran up the right to the 20.

Lewis ran to the 15 next, but a flag against the Pirates put

run around the left to the 10-yard line. Benoit then ran right to the 4, where Pirate Keith Anderson tackled him, sustaining a minor injury.

Quinlan took the ball on the next play, running the final 4 yards for the Rocks' second and last score of the night. The point-after, a two-point conversion attempt, was broken up, and the score stayed at 13-12 with 10:48 left to play.

The Pirates ate up the next 71/2 minutes with a futile attempt to score. They were finally forced to punt at the Rock 47 on a fourth-and-verylong situation. The ball went down at the Rock 16.

The Rocks advanced to the 30, then stalled with several badly overthrown pass attempts and two penalties. The Pirates regained posses-

#### Collision course

East Central's Mike Mayfield (#32) keeps an eye on Bay High's Roger Williams (#69) and prepares for the collision in high school football action Friday night. East Central edged Bay High 20-18 in the Hornets' district opener. (Echo staff photo by Jimmie Brewer)

# Hornets sting Tigers 20-18

BY JIMMIE BREWER

It was classic high school football action Friday night at McCullouch stadium in Bay St. Louis.

Two teams filled with brave young warriors waged a battle for 48 minutes as the Hornets of East Central held on to defeat the Bay High Tigers 20-18.

"I'm just proud of my team and how they played tonight. We didn't lose this game, we just ran out of time," commented Tiger head coach Walt Esslinger following the closely fought game.

The Tigers kicked off to start the battle and halted the Hornets on their first drive. Bay High wasted little time in displaying their talents as Tiger quarterback Wali Shabazz handed off to teammate Xavier Lewis, who cut around the left side and outdistanced the Hor-

net defense for a 44-yard touchdown run with seven minutes remaining in the first quarter.

The apparently successful two-point conversion was called back on a holding penalty by the Tigers, and Bay High held the early lead 6-0.

The Hornets took the ensuing kickoff and held the ball for the next five minutes behind the excellent running of East Central's Mike Mayfield and the passing of quarterback Bo Long.

Long.
With one minute left in the quarter, Long handed off to full-back Darren Pierce, who high-stepped the pigskin into the end zone to even the score at 6. The PAT by kicker Anthony Roeyer split the uprights, and the Hornets led 7-6.

For the next eight minutes the Tigers appeared unstoppable. General Shabazz marched his team down the field using an array of weapons. Then, on a fourth and 15, Shabazz sneaked the ball over the goal line and the Tigers led 12-7, with 5:49 remaining in the half. The two-point conversion failed and the score remained the same.

It appeared as if Bay High would take the lead into the locker room when Hornet quarterback Long delivered a 30-yard touchdown pass to receiver Andy Dunn. Again, the PAT kick by Roeyer split the uprights and East Central held the halftime advantage at 14-12.

Two turnovers by Bay High in the first four minutes of the second half proved costly as the Hornets took advantage and pushed the ball into the end zone with a great second effort by Hornet running back Michael Myrick. The PAT was

no good and the score remained Hornets 20, Bay High 12. Both defenses stepped up

their play for the remainder of the third quarter as neither team could find the end zone. With 5:59 left in the game

Shabazz struck big. On a first and 10 from the Hornet 35, Shabazz kept the ball on an option play and exploded up the sideline for a dramatic touchdown. The two-point conversion, which would have tied the game, fell short as the Hornet defense stopped running back Reggie Williams just outside the goal line.

East Central hung on to win the game 20-18, making their conference opener successful. Bay High fell to 2-2, 0-1 in conference play.

The Tigers travel to Pearl River Central next Friday. Kickoff is set for 7:30 p.m.

Courtney Hopper and Martha Houston will entertain at the high tea. (Echo staff photo by Sharon

# Choir association to present High Tea

The Long Beach Concert Choir Association is presenting a High Tea Oct. 1 at the Markham Crystal Ballroom. The elegant event is a model of the tea at the Windsor Court Hotel in New Orleans.

Guests will be served sandwiches, traditional English scones and tea cookies as they listen to the music of violinist Courtney Hopper, a student at Coast Episcopal High School, and pianist Martha F. Houston, choral director at Long Beach Middle School. Hopper is the daughter of Dr. and Mrs. William C. Hopper of Pass Christian.

Miss Hopper will perform on her 100-year-old German violin. She has studied the instrument for 12 years. One of her teachers, Doris Hansen of New Orleans, served 30 years as concertmaster of the New Orleans Symphony.

She also has studied with Valerie Poulette, professor of strings at Loyola University in New Orleans. Presently she is studying with John Simic of Diamondhead.

Houston has studied in Paris and has performed for numerous civic, church and community theater groups along the Coast. The Long Beach performer earned her specialist in music education degree from the University of Mississippi and received the Carnegie Fellowship for doctoral studies.

Also featured at the tea will be fall fashions from The Ideal Shop of Gulfport and an exhibit of artwork by local artists J. J. Foley and Terri Blake Edwards.

The Long Beach High School Choir will tour Europe this spring, and the tea is one of many project to raise money for the \$50,000 trip. Students will visit the home of the Vienna Philharmonic Orchestra, The Vienna State Opera House and the birthplaces of Mozart, Schubert, Brahms and Strauss.

The High Tea will be served in two seatings, 2 to 3 p.m. and 4 to 5 p.m. Tickets are \$7.50 per person. For details or reservations call 864-6770 or 868-1099.

#### **Hancock County** nominates Church, A Place of Art II

Since 1988, our state's most outstanding contributors to the arts have been annually acknowledged with the Mississippi Governor's Awards.

rave

The awards are coordinated each year by the Mississippi Arts Commission. This year three nominations for the prestigious awards were submitted from Bay St. Louis.

N. Carter Church of Bay St. Louis' international design studio, CC Designs, was nominated by Bay St. Louis Mayor Edward Farve for the Governor's Artistis Achievement

He was also nominated in the Heritage Award category by Senator Bill Johnson.

Church, who was born in Jackson, received the nomination for his contributions through 30-plus years in the design industry showcasing his designs and production for costuming, theatrical, commercial and signature Mardi Gras creations, as well as couture clothing and his exclusive department store clothing lines.

Church was the 1993 recipient of the Fashion Group International's Lifetime Achievement Award.

In the category of Heritage Awards, a nomination was for "A Place of Art II," 1993's premiere fine arts tour and sale was by Bay St. Louis Mayor Edward Favre. A Place Of Art II received its nomination for its promotion of the arts in Hancock County and the Gulf Coast

The A Place Of Art Founda-

tion produces the tour and sale which transforms the first two blocks of Main Street, Bay St. Louis, into a walking mall for fine arts.

This year's tour is Oct. 8 and 9, preceded by the Patron's Party at the Bay-Waveland Yacht Člub, Saturday, Sept. 24 from 7 until 10 p.m.

This honor salutes A Place Of Art in its fund-raising endeavors for the promotion of the arts and culmination of a museum and public art for Hancock County.

Winners in previous years range in diversity that seems to mirror Mississippi's broad range of artistic flavors. Among the winners are Leontyne Price. Eudora Welty, West Tallahatchie High School, gallery owner William Dunlap, and Eleanor Ferris for her baskets woven on the Choctaw reservation.

Jane Crater Hiatt, executive director of the Mississippi Arts Commission, which sponsors the ceremony each year, as stated in this months' Mississippi Magazine article, emphasizes the links between art, business, and government and the importance of celebrating their special relationship that foster a vibrant environment for creativity.

She also points out that the Governor's Awards for Excellence in the Arts presentation is not only a wonderful event but is a celebration with all invited. The 1995 ceremony will take place in February 1995 in the Old Capitol Museum.

#### **ARTIN' ABOUT**

Concert series

The bride was given in marriage by her father. She close for her wedding a formal gown of white satin with a scoop neckline on a fitted Basque bedice. The bodice was appliqued with pearled and sequinned schiffli lace.

It featured Gibson sleeves with pillowed satin puffs at the shoulders. The full skirt was decorated with lace appliques and the cathedrallength scalloped train fell from a back bow at the waist. She wore a fingertip veil of illusion, with a band across the forebead

Paula Farve was maid of honor. Bridal attendants were Alicia Paucetta, Melissa La Fontaine, April Farve, Lila Moran, Leisha LaFontaine, Kim Klien and Tammy Morel.

The attendants dresses were of iridescent turquoise taffeta with square necklines on pleated bodices. The sleeves were shirred and puffed at the shoulders and the gowns had full ball-length

Glenda Simpson was flower girl and Brandon LaFontaine was ringbearer.

Mark LaFontaine served as best man. Groom's attendants were Anthony Ladner, Kris Whitney, Glenn Farve, Scott Scarbrough, Gerald Farve Jr., Rodney LaFontaine and Harry Morel Sr. Ushers were Jasper Faucetta and Wayne Hoda.

Junior bride was Jayme Alfonso and junior groom was Harry Morel Jr.

A reception was held at the Hancock County

Mr. and Mrs. Timothy LaFontaine

A rehearsal dinner was given by the groom's mother at ther home. The couple is making their home in Waveland.

#### ATTREACHING

Traci Alsine Pallen became the bride of Williams Arraez in a 4 p.m. ceremony on Saturday July 16, 1994 at Diamondhead Baptist Church in mondhead.

She is the daughter of Mr. and Mrs. Kenneth N. Pullen, formerly of Marrero, La., now residing in Dismondhead. She is the granddaughter of Mr. and Mrs. Joseph Pullen of Westwego and the great-granddaughter of the late Mr. Lovell Dorr. Mr. Arraez is the son of Mr. and Mrs. Ricardo

Arraez of The Woodlands, Texas. Dr. Fred Womack officiated at the ceremony. Organist was Mrs. Plorence Holt. Musical selections were performed by Miss Leila Gargoum and Miss Raquel Plaisance.

The bride was given in marriage by her father. She chose for her wedding a formal gown of white silk shantung with re-embroidered alencon lace embellished with seed pearls. The bodice featured a scalloped off-the-shoulder neckline with short cap sleeves and a Basque waistline.

Her veil consisted of a spray of tulle speckled with pearls and it fell from a caplet of silk shantung rosettes. She carried a bouquet of silk

Matron of honor was Mrs. Kheena Pineda of Westwego and the maid of honor was Heather Sevier of New Orleans, Amanda Pullen, Elizabeth Constant, Maria Miserendino and Raquel Plaisance served as bridal attendants.

The bride's attendants were ankle-length dusty rose suits of shantung silk. They carried bouquets of silk magnolias with dusty rose centers. Ashlyn Plaisance was the flower girl and Shelle Pullen attended as the program girl.

William Stokes of Conroe, Texas, served his son as best man. Groom's attendants were Kenny Pullen, Zac Jones, Eric Eakin and Ian Carroll. Ringbearer was Joshua Plaisance. Ushers were Joey Bozzell and Justin Burrell.

A dinner reception was held at the Diamondhead Country Club.

A rehearsal dinner was held at the Blue Rose Restaurant in Pass Christian and was given by Mr. and Mrs. Ricardo Arraez.

#### Invest in your future now!

If you're ready to put your money to work for you and insure your financial standing, it's time to make an appointment with Basil Kennedy, president of Financial Services Corporation. Mr. Kennedy has been in the financial service business for over 20 years. His expertise regarding investment opportunities guarantees that you will get the most out of your money.

Financial Services Corporation, founded in 1990, was originally conceived as a commercial/residential loan agency. To meet the needs of our community, Mr. Kennedy quickly expanded into the annuity, life, accident and health insurance business. His association with Royal Alliance Associates led to further expansion into the general securities market. Royal Alliance Associates is one of the largest associations of independent stock brokers in the nation.

Basil Kennedy's experience and the full range of investment opportunities offered at Financial Services is sure to meet your personal needs. Residential mortgage loans are offered at a very competitive rate through solid mortgage lenders such as Empire of America and Chase Manhattan, perfect for the new home buyer or for refinancing your present home. And as a registered representative of Royal Alliance, Mr. Kennedy can advise you in the purchase of stocks, bonds, mutual funds, variable annuities, and fixed annuities.

Whether you are an experienced investor or just getting started. Mr. Kennedy can provide you with investment information and help you to properly structure your investment portfolio. Call Basil Kennedy at (601) 467-5793 for an appointment today! Located at 101 Highway 90 in Bay St. Louis.

#### BREWERS WORLD

Himmie Brewer

Hey, pick me

Hot dog, it's Sunday morning! One more day left in the weekend. Let's see ... I think I'll spend this day catching up on man chores like cleaning out the garage, giving those hedges a long-overdue trim, or getting that oil stain off the driveway ... NOT! I'm going out and having FUN!

That's right, I'm taking my new pair of Kmart golf shoes, throwing on my old, beat-up ball cap, and I'm headed for the

I love golfing on Sunday morning, 'cause that means Mary and I get to golf with two of our good friends, Brian and Annette. Now here's a pair for you: an Englishman and a lawver.

You want to hear something funny? Just listen to Brian cuss when he hits a bad shot. Mildmannered Englishmen with heavy accents should not be allowed to use American fourletter words on the golf course.

After an errant shot he should say something like this: "Blimey Mate, I've 'it me bloody ball a good bit in the trees.' That would seem a more appropriate response.

However, Brian does have some powerful psychological weapons he uses against his opponents on the putting green. I won't divulge his defense entirely, but I can tell you, it has something to do with bodily noises just as you are about to putt. It is a deadly weapon.

Normally before we play we choose teams, with the losing team buying lunch after the match. My name of course comes up often when choosing

teams: "Who wants Brewer this week?" "Not me, I had him last

"Oh no, I had him two weeks in a row. I don't want him, you

take him." "Hey, I didn't bring enough lunch money to have him on my

team, you take him!" We have tried every combination of teams to equalize the match. To date my team has never won. Hey, that's alright, today is a new day and anything can happen in Paradise.

Besides, my golf game has been described by many as being: colorful, unbelievable, astonishing and other kind

descriptions. Who else do you know that can hit three trees with one shot? No kidding, I did that last week. It was just like that commercial on TV. Who else do you know that can tee off on the Cardinal Course and hit the ball over the trees, across the street and onto the Pines course? Hey,

it's pretty amazing stuff.
In any event, we'll manage to have fun today, and those manly chores will keep for another week or so.

Okay dudes and dudettes, praise for do-gooders this week goes out to the moms and dads who fill the bleachers on Friday night to watch their kids play ball. Peace.

A Cigarette Butt IS Litter!

"My 10-year-old daughter recently found a baby bird that apparently had fallen from the nest. My daughter, who loves animals of all kinds, wanted to pick it up and putit in a box. She thought she could feed it and eventually set it free.

This is not the first time she has wanted to adopt an orphaned or injured wild animal. What should we do when we find such animals?"

Many children are fascinated with animals, especially wild ones. While encouraging their interest in nature is good, children should realize wild animals do not make good pets nor should an untrained person try to raise one.

Explain to your daughter she will do more harm than good by picking up the bird.

Dr. Merilee Holland, assistant professor at MSU's College of Veterinary Medicine and faculty advisor for the Student Wildlife Support Group, offers the following guidelines for dealing with injured or orphaned wild animals.

When you see what appears to be an orphaned wild animal, do not pick it up. Watch it for several hours. You probably will see the mother returning to

PUBLIC NOTICE OF APPLICATION
FOR COASTAL WETLANDS PERMIT
AND WATER QUALITY CERTIFICATION
The Hancock Courny Board of Supervisors has filed
an application with the Department of Marine Resources requesting permission to conduct regulated activities under the provision of the Coastal Wetlands Protection Law, Chapter 27, Mississippi Code of 1972.
The applicant is requesting permission to create a fishing reef by placing approximately 15,000 cubic yards of clean concrete rubble Into an existing borrow area located in the Mississippi Sound just offshore of south Bay St. Louis.

area located in the Mississippi Sound just offshore of south Bay St. Louis.
In compliance with Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1251, 1341), as amended by PL 95-217, The Hancock County Board of Supervisors has requested certification from the Bureau of Pollution Control that the above mentioned activity will be in compliance with applicable provisions of Section 301 (33 U.S.C. 1311), Section 302 (33 U.S.C. 1312), Section 303 (U.S.C. 1313), Section 306 (U.S.C. 1316), and Section 307 (U.S.C. 1317) of the Act and appropriate requirements of the State Law.

Any person wishing to make comments or objections to the proposed regulated activity must submit those comments in writing to the Department of Marine Resources at 2620 Beach Boulevard, Biloxi, Mississippi 39531 and the Bureau of Pollution Control, Post Office.

Hesources at 25c2 Beatin Douberary, Brown, missessign 39631 and the Bureau of Pollution Control, Post Office Box 10385, Jackson, Mississippi 39205 before 1:00 p.m. on the 17th day of October, 1994. 9-25; 10-2; 10-9-94

Act bables any or intercept to see the seed of the see

needs to be separated from them. Thus, many of these fawns had been unwittingly kidnapped by well-intentioned people

Do not attempt to raise a wild animal. Birds, raccons and other wild animals require a specific diet and environment to thrive. What may seem like a healthy diet and comfortable surroundings to you can be potentially fatal to a wild animaì.

It never is wise for an untrained person to handle an orphaned or injured wild animal. Because of their wild

order of the control resources equipped to give the proper care:

While we should preserve and protect our wildlife, we need to recognize "survival of the fittest" is how the strongest and the best survive in the world.

#### A job well done

Dr. Karen M. Yarbrough, right, vice-president for research and planning at the University of Southern Mississippi, congratulates Dr. Thomas D. McIlwain, retiring director of the Gulf Coast Research Laboratory, for a job well done as a GCRL staff biologist for 29 years and director for five years.
